- Income from operations of \$53.5 million, a 20.8% increase over the first quarter of fiscal 2011
- Adjusted EBITDA, a non-GAAP measure described below, of \$75.0 million, a 9.5% increase over the first quarter of fiscal 2011
- Net revenues of \$351.9 million, a 4.8% increase over the first quarter of fiscal 2011

The growth in net income attributable to the Authority, income from operations and Adjusted EBITDA for the quarter ended December 31, 2011 was primarily attributable to increases in gaming and non-gaming revenues at both Mohegan Sun and Mohegan Sun at Pocono Downs. These results also reflect the impact of changes in our promotional offers designed to improve profitability, as well as our continued focus on managing expenses and enhancing operating efficiencies.

“We are pleased with our results for the first quarter of fiscal 2012,” said Mitchell Grossinger Etess, Chief Executive Officer of the Authority. “The increases in EBITDA and margins are quite rewarding and reflect the passion, dedication and hard work of our entire team over the past two years. We are encouraged by this momentum and confident that as the economy continues to stabilize our business volumes will improve.”

Gaming revenues increased primarily as a result of higher table game revenues. The increase in table game revenues resulted from higher table games hold, combined with the slight increase in table games drop. These results also reflect the impact of changes in our promotional offers designed to improve profitability.

Average price per Arena ticket (in dollars)	\$ 53.22	\$ 45.79	\$ 7.43	16.2%

The growth in non-gaming revenues was primarily attributable to a \$3.0 million increase in entertainment revenues. The growth in entertainment revenues resulted from the increases in Arena tickets sold and the

average price per Arena ticket. These results reflect the increase in Arena events, including an additional headliner show held at the Mohegan Sun Arena during the quarter. The increase in food and beverage revenues was primarily attributable to the increase in the average price per meal served resulting, in part, from the July 2011 re-opening of the renovated Season's Buffet featuring expanded offerings. The reduction in the number of meals served reflects the replacement of certain Mohegan Sun-owned outlets with third-party operators and the September 2011 opening of Ballo Italian Restaurant & Social Club, a third-party restaurant located in Casino of the Earth.

Adjusted EBITDA Explanation:

Earnings before interest, income taxes, depreciation and amortization, or EBITDA, is a commonly used measure of performance in the casino and hospitality industry. EBITDA is not a measure of performance calculated in accordance with GAAP. The Authority historically has evaluated its operating performance with the non-GAAP measure, Adjusted EBITDA, which as used in this press release, represents earnings before interest, depreciation and amortization, loss on disposition of assets, workforce reduction severance, accretion of discount to a relinquishment liability, other non-operating income and expense and loss attributable to non-controlling interests.

Adjusted EBITDA provides an additional way to evaluate the Authority's operations and, when viewed with both the Authority's GAAP results and the reconciliations provided, the Authority believes that it provides a more complete understanding of its business than could be otherwise obtained absent this disclosure. Adjusted EBITDA is presented solely as a supplemental disclosure because: (1) the Authority believes it enhances an overall understanding of the Authority's past and current financial performance; (2) the Authority believes it is a useful tool for investors to assess the operating performance of the business in comparison to other operators within the casino and hospitality industry since Adjusted EBITDA excludes certain items that may not be indicative of the Authority's operating results; (3) measures that are comparable to Adjusted EBITDA are often used as an important basis for the valuation of casino and hospitality companies; and (4) the Authority uses Adjusted EBITDA internally to evaluate the performance of its operating personnel and management and as a benchmark to evaluate its operating performance in comparison to its competitors.

The use of Adjusted EBITDA has certain limitations. Adjusted EBITDA should be considered in addition to, not as a substitute for or superior to, any GAAP financial measure including net income (as an indicator of the Authority's performance) or cash flows provided by operating activities (as an indicator of the Authority's liquidity), nor should it be considered as an indicator of the Authority's overall financial performance. The Authority's calculation of Adjusted EBITDA is likely to be different from the calculation of Adjusted EBITDA or other similarly titled measurements used by other casino and hospitality companies, and therefore, comparability may be limited. Adjusted EBITDA eliminates certain items from net income, such as interest, depreciation and amortization and reassessment and accretion of discount to the relinquishment liability. Each of these items has been incurred in the past, will continue to be incurred in the future and should be considered in the overall evaluation of the Authority's results. The Authority compensates for these limitations by providing the relevant disclosure of interest, depreciation and amortization, reassessment and accretion of discount to the relinquishment liability and other items

excluded in the calculation of Adjusted EBITDA, both in its reconciliations to the GAAP financial measure of net income and in its consolidated financial statements, all of which should be considered when evaluating its results. The Authority strongly encourages investors to review its financial information in its entirety and not to rely on a single financial measure.
